#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**DETAILED ACTION**

***Election /Restrictions***

***Election of species***

1. This application contains claims directed to the following patentably distinct species of the claimed invention: colon carcinoma, gastric carcinoma, esophageal carcinoma, rectal carcinoma, pancreatic carcinoma, prostate carcinoma, glioma and neuroblastoma.
2. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable.
3. It is noted that the examination will be extended to the level of the election. In other worlds, claims 8-9 and 18-20 are generic to a plurality of disclosed patentably distinct species where the search is burdensome.

As evidenced by numerous patent and no-patent literature, there is no single drug can treat all types of cancers, see US5721267 or US5676924. Since this assertion is contrary to what is known in medicine, proof must be provided that this revolutionary assertion has merits. The existence of such a "silver bullet" is contrary to our present understanding of pharmacology("New cancer drugs no " Magic bullet", but promising", Reuters News, 2001).

Since a single disclosed species(a disease or condition) is considered to be non-obvious variant to each other so that the examination is extended to the level of the election where each condition will be treated separately.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is required, in reply to this action, to elect a **single disclosed species** (i.e. a specific compound ) to which the claims shall be restricted if no generic claim is finally held to be allowable. **The reply must also identify the claims readable on the elected species, including any claims subsequently added.** An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

### ***Conclusion***

1. It is noted that the restriction requirement is necessitated by amendment filed Sep. 8, 2004. 37 CFR 1.142(a), second sentence states: " if the distinctness and independence of the invention is clear, such requirement will be made before any action

upon the merits however, it may be made at any time before final action in the case at the discretion of the examiner.". Thus, the instant restriction requirement is considered to be proper in timely manner.

2. NO claim is allowed. All pending claims are subject to election of species requirement.
3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Vickie Kim whose telephone number is 571-272-0579.
